

The Brand *Book.*

C O N T E N T S

A quick map.

01	The Essence	Vision, mission, promise
02	Logo System	Primary, icon, wordmark, variations
03	Logo Construction	Grid, clear space, minimum size
04	Misuse	What never to do
05	Color Palette	Primary, secondary, contrast
06	Typography	Display and text hierarchy
07	Voice & Tone	How we sound
08	Imagery	Photography direction
09	Applications	Stationery, social, sales offers
10	Colophon	Credits & custody

PRIMARY SIGNATURE

The icon + wordmark lockup.

0 1 — T H E E S S E N C E

Power that *pays you back.*

Voltra designs, engineers and installs solar energy systems that help Uzbek families and businesses take control of their power bill. Our work lives where sunlight meets certainty — careful sizing, premium hardware, and long-horizon service. The brand stands for that quiet confidence.

VISION

A Central Asia where every rooftop is an asset.

MISSION

To deliver solar systems engineered for 25+ years of honest return.

PROMISE

Designs you can defend, installs you can trust, savings you can measure.

BRAND ONE-LINER

“The sun is already
working. **Voltra just
collects the cheque.**”

— VOLTRA

One mark, four voices.

The identity is built on a single geometric V that fuses a checkmark with a lightning bolt. It appears in four configurations — use the primary signature whenever space allows.

PRIMARY SIGNATURE

Icon + wordmark — use on light backgrounds

REVERSED SIGNATURE

On Voltra Green — preferred for premium context

ICON

Avatar, favicon, watermark

VOLTRA

WORDMARK

Where the icon is already visible

Room to breathe.

The clear space around the Voltra signature is defined by the height of the icon, marked **X**. Maintain at least 0.5X of clear space on every side — more whenever space allows. Never let text, imagery or trim come closer than this.

CLEAR SPACE = 1/2 icon height, all sides

MINIMUM SIZE

Digital — min 120 px wide

Print — min 28 mm wide

GEOMETRY

The V is constructed on an 8x8 unit grid. The diagonal bar runs at a fixed 62° slope; the right-side bolt is a pair of triangles offset by one unit to imply motion. Never re-draw, re-space, or attempt to re-create the mark.

Please don't.

The mark is a precision tool. These six examples cover the misuses we see most — each erodes equity in the brand. Always start from master artwork, never a screenshot.

DON'T STRETCH

Use only approved artwork.

DON'T RECOLOUR

Use only approved artwork.

DON'T ROTATE

Use only approved artwork.

DON'T ADD EFFECTS

Use only approved artwork.

VOLTRA

DON'T RE-ARRANGE

Use only approved artwork.

DON'T PLACE ON CLASH

Use only approved artwork.

Green, sun, and cream.

The Voltra palette pairs a confident forest green with a signal yellow that represents the sun at work. Cream is the everyday canvas. Use dark green or ink on cream for text, and reserve yellow for accents, numbers and calls-to-action.

VOLTRA FOREST**#155233**

RGB 21, 82, 51

PANTONE PMS 560 C

Primary background. 60% of all surfaces.

SECONDARY**DEEP FOREST**

VOLTRA SUN**#F0C71D**

RGB 240, 199, 29

PANTONE PMS 7549 C

Accent only. Never body copy.

VOLTRA CREAM**#F9F3D9**

RGB 249, 243, 217

PANTONE PMS 7527 C

Canvas. Documents, light UI, print stock.

Set it straight.

Voltra pairs a classic serif for long-form moments with a quiet geometric sans for interface and data. Set headlines tight, set body generously. Always anchor to the baseline grid.

DISPLAY — SERIF

Aa *italic*

Recommended: Playfair Display — fallback Times

The sun pays back.

REGULAR

The sun pays back.

ITALIC

The sun pays back.

H3	16 / 22	Sans Bold
BODY	10.5 / 15	Sans Regular
CAPTION	8 / 11	Sans Bold +140

Plainspoken, never cold.

Voltra speaks to homeowners and business owners making a long-term investment decision. We are technical when asked, warm when expected, and honest always. Avoid hype. Numbers are our favourite adjective.

WE ARE

- Clear — the system is explained in one breath.
- Patient — we answer the same question twice.
- Specific — we say “20 kW”, not “big”.
- Conservative — we size for reality, not brochures.
- Long-term — we measure in decades.

WE ARE NOT

- Buzzy — no “revolutionary”, no “disruptive”.
- Salesy — the numbers must do the selling.
- Alarmist — no energy-doom language.
- Techno-elitist — no acronym bombs.
- Vague — every claim ties to a figure.

BEFORE / AFTER — EXAMPLE

“Unleash the future of energy with our game-changing solar solution.”

“20 kW on your roof. Payback in 4.5 years. 25-year warranty.”

Rooftops, not stock.

Our imagery shows real installations, real customers, and the honest sky of Uzbekistan. Favour golden-hour natural light, wide framing of roof-mounted arrays, and the hands that installed them. Avoid manufacturer renders and icy-blue stock panels.

01 Natural light

Early morning / late afternoon; long shadows.

02 Real context

Uzbek homes, farms, shops. Region-specific.

03 Human scale

Engineers, customers, and hands in frame.

04 Wide + detail

Pair an establishing shot with a macro detail.

05 Authentic colour

Warm whites, deep greens. No blue filters.

In the wild.

BUSINESS CARD — 85 x 55 MM

INSTAGRAM POST — 1080 x 1080

COMMERCIAL OFFER — A4 DOCUMENT

LETTERHEAD — A4

Make it
shine.
